## Mission Statement

To provide our clients with a very high level of responsiveness, service and safety for hazardous materials response and remediation. Our success relies upon using our skills, expertise and experience to exceed the expectation of our clients and to protect their vital interest and the environment.

## Insurance

North Shore Environmental Construction maintains A++ rated general, professional, public liability, pollution/professional coverage in the amount of \$5,000,000.00 per occurrence for our clients.

## Experience

North Shore has successfully completed over 8,000 environmental remediation projects since 1989. North Shore has a proven track record with the companies and communities that it has served, along with a complete reference listing of all projects that it has been associated with.
